BACHELOR INTERNSHIP PROGRAM

San Benito County Behavioral Health Internship Program offers extensive opportunities to gain valuable experience in the mental health field and gain hands-on experience in areas such as:

Community outreach & education: Help prepare and share behavioral health information, support community events, and promote awareness of available services

Case management: Coordinate care for individuals with mental health or substance use issues, connecting them to resources and services.

Community outreach: Engage and educate the community in mental health awareness and access to services.

Program support: Assist with activities, group preparation, program materials, and day-to-day projects that support behavioral health services.

Hourly Stipend Offered

16-24 hours per week
